1st February 2021

Dear Parent/Guardian,

We had an information meeting planned for mid-January for the parents/guardians of 3rd Year and Transition Year students regarding programme/subject choices for senior cycle. Unfortunately, due to the current school closure and other possible restrictions in to the future, it will not be possible to facilitate this gathering. In place of this meeting, we have produced a number of presentations in video format which will give you the required information regarding the programmes/subject choices available to students as they move into senior cycle. Please click on the links below to view the respective video presentations. Students will be given further advice once schools reopen from the Guidance Counsellors and the programme coordinators. If you have any further questions or queries regarding the various options, please do not hesitate to email them to the dedicated email address below.

Transition Year
