To help our students to make informed decisions we would ask parents and students to discuss the decisions that they need to make in advance of filling in the SEC Candidate Portal which is due to open at 12 noon on the 10th March. We would appreciate if you could return this completed form so that we can plan for the Oral exams during the Easter holidays.

Students will have a further opportunity at the end of April/early May to confirm their levels in each subject. At that time, students can also withdraw their intention to take the written examination but they will not be able to indicate their intention to sit examinations after the 16th March 2021.
